

Not everyone agrees with Benny Wenda. I try to be as objective as possible, therefore I decided to publish another sound. I agree at least with the last sentence of this comment. Read below comment on papatoday.wordpress.com:

Mr.Benny Wenda always sell his liar about Papua

Mr Wenda who claimed himself as the great leader of West Papua made another super claim as the voice of 250 tribe. He said that West Papua is Western Half of the New Guinea Island North of Australia, Home of Birth of paradise, but today home of Military. Indonesia Military & Police committed crime humanity in West Papua, everyday killing, rape, intimidation, torturing, and Imprisonment. He also mentioned that when West Papuan People made a peaceful demonstration, Indonesia Military and Police always came and stopped the demonstrator and arrest them, torture them put them in the prison very long time without any trial. Please check yourself by visiting Papua and you will find the peaceful land of Papua without any condition that Benny has accused in his speech at every corner of the United Kingdom.

Benny the great leader of West Papua is a Liar. He lies with his heart and never really think about the progress in West Papua. Indonesia is a democratic country, and you have to prove it by seeing it directly with your eyes and not from what Benny has said so.

Why should smart people in UK and Holland believe what Benny said without crosscheck to reliable sources and if possible just see it with your own eyes. West Papuan people need your help to see the situation in reality and not lies. Mr. Wenda just thinking about his interest to earn money, popularity and never thinking about how to find solution in Papua. So we must carefully when read information about Papua, because we must crosscheck true or false.
